RE: Eagle River Road MP 5.3 to MP 12.6
Project: STP-00550(15)/53943

Attendee
Address
City, State Zip

Dear Attendees,

The Alaska Department of Transportation & Public Facilities appreciates your interest in the Eagle River Road project and the thoughtful comments we received at the December 7th meeting on the project.

You and other attendees posed questions to the project team at that meeting. Your comments, questions and the Department's responses to them are included in the attached meeting notes.

We trust that you will continue to let us know if you have questions as we complete the design, right of way acquisition and head towards construction of this important road project in your area.

Sincerely,

James E. Amundsen, P.E.
Project Manager
